NEW

Flush Outside Corner

Pictured below are the Drystack Inside Corner in Durango Red and the Drystack Outside Corner in Kentucky Gray. These are the corners that are currently in our product line that are specific to the Drystack pattern. When you install these corners, the panels will slide behind them and give the corner a more pronounced look.

Drystack Inside Corner
Durango Red
4 1/4" x 4 1/4" x 40"
Available in all colors

Drystack Outside Corner
Kentucky Gray
5 1/2" x 5 1/2" x 40"
Available in all colors

NextStone is excited to announce the addition of an integral Drystack outside corner. This particular corner will wrap around and blend into the panels to create more of a continuous rock face. To install this corner you will use the same tongue and groove system that is used to install the panels. The coverage area is 11" on the long side and 4" on the short side with a thickness of approximately of 1 1/2" and a height of 5" to match up with the current panel size.

They will be called Drystack Flush Outside Corner and are available in all of the current Drystack colors. The corners will be packaged 4 to a box 2 of them will be left handed and 2 of them will be right handed. You will want to alternate them left and right as you install them. If you are doing a wainscoting you may wish to dry fit and adjust the height if possible, to avoid cutting the top flange off. Once you have attached your starter strip you will install the bottom corner piece.

Slide the corner piece down snugly over the starter strip and attach with screws where indicated. Moving down the wall to your right you will begin to install the panels. Place the bottom tongue of the panel into the starter strip groove, slide it to the left into your corner and lock into place. Attach the panel and continue down the wall. You can work into an inside corner by simply mitering the ends and fitting them tightly together in the corners.

Dealer Shows . . .

NextStone recently participated in the Lowes Customer Appreciation days that were held at individual stores nationwide. At these shows we were able to display panels, accessories and the new mailbox enclosures.

We wanted to Thank the Lowes stores that allowed us to participate and helped generate some new interest in the NextStone products.

A Special Thank You goes out to the Lowes #1874 in Longmont Colorado as they are the first store to sell a 12" LedgeStone Mailbox Enclosure.

NextStone News . . .

Here at NextStone Corporate, we would like to take this opportunity to introduce you to Kathy Higgins. She joined the company in August of 2009 and has helped with several projects in house and in the local market. Currently, she is handling the warranty claims, product questions, website inquiries, updating brochures. Kathy's background includes both Building Material Supply and

Manufacturing with the majority of that experience being in Customer Service and Sales.

During the summer months Kathy likes to camp and hike and in the winter she likes to play in the snow and occasionally puts on a pair of ice skates. Her indoor interests include watching Sci-fi and sports on TV, and crocheting.

Extra, Extra . . .

We are sure that you will agree that pictures of completed jobs and good quality literature is important for all of us to achieve goals. You can help. NextStone is asking that you submit photos by email to: kathyh@nextstone.com If your photo is selected for publication, you will receive a \$50 Visa or MasterCard gift card. If you choose to mail your pictures, please mail them to our office address as shown.
