Trim and Parts . . .

LEDGER

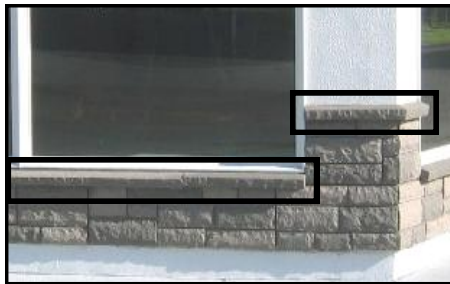

INSIDE LEDGER CORNER

OUTSIDE LEDGER CORNER

LEDGER & LEDGER CORNERS

sloped sill for water runoff and a traditional look to finish off the top of wainscoting or other sill applications. You can use the Ledger and Ledger Corners with any style of panel. Install by fitting into the tongue at the top of the panel or use the flat portion to lay on top of a panel that has had the flange cut off to fit. You may want to dry fit the ledger when installing under a window sill to be sure there is enough room for a full panel and the Ledger if possible. Available in Buff, Gray, Red

and Charcoal to accent the panel colors. The Ledger comes in 48" length, 4" depth (out from the wall) and a height of 2 1/2" The face of the Ledger and Ledger Corners is textured to look like the broken edge of a rock shelf and the top and sides of the Ledger and Ledger Corners have a slightly smoother texture to look like the quarried or cut side. The Ledger Corners are available in both Inside and Outside and measure 6" x 4" x 12" with one side being longer than the other one with a mitered joint in the corner.

ACCOUNTS PAYABLE

Please note that you can now pay your invoice via credit card. If you would prefer to make your payment this way please contact Maria at 866-371-8232 to complete the paperwork necessary to activate credit card payments.

ACCENT ROCKS

Large 11 1/2" x 15 1/2"

Small 7" x 15 1/2"

Accent Rocks are designed to be used along with the Random Rock panels available in both small and large sizes. Each box of Rocks contains 3 pieces, a light, medium, and dark stone to coordinate with the 3 colors found in each of the panels; Lava Gray panels are all 1 shade of gray and the Accent Rocks would be the same single gray color. Shown here are 2 examples of an Accent Rock installation with the inset showing where the rocks were placed amongst the panels.

Trim and Parts cont. . .

WINDOW & DOOR TRIM is used as a transition around doors and windows, less than 90 degree angles and to end or cap NextStone panels. One of the most versatile trim pieces available it can be used as is or cut on either "leg" to create either a square piece or a flat rectangle piece that can be used in countless areas of installation where a typical trim piece may not fit. Can be used by itself to wrap windows and doors or with the Ledger used as the sill piece or wainscoting edge. Available in Buff, Gray, and Red and measures 48" x 2 1/4" x 3 1/2". Please note that any cut edges need to be touched up.

Buff Window and Door Trim installed on sill and sides with Ledger for wainscoting

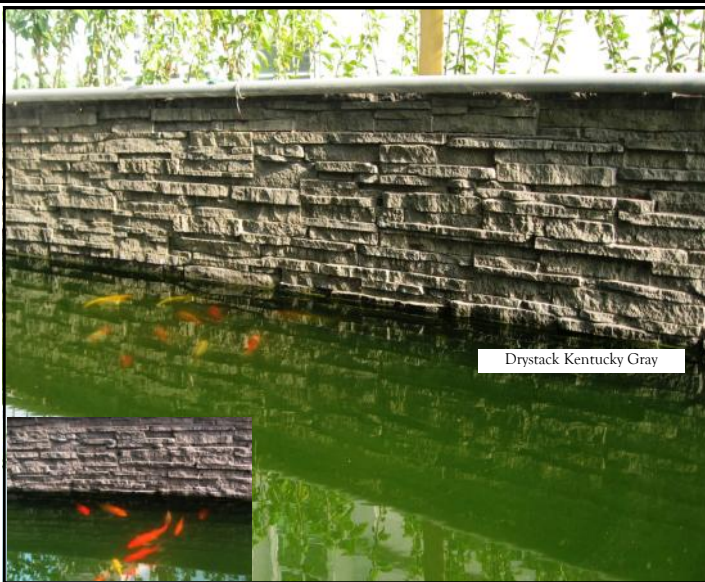

Gray Window and Door Trim around a series of windows with Random Rock Tri Gray Panels

Red Window and Door Trim on sides with Ledger sill and Random Rock Tri Sedona Red Panels

Water Feature . . .

Dystack Kentucky Gray

We have recently had several inquiries on using the NextStone product in or around a water feature, such as a pond or fountain. The closed cell polyurethane product is ideal for such a purpose because it will not absorb any moisture. Here are pictures of how the product was used as a retaining wall for a fish pond and as a backdrop and lower surround for a fountain.

Random Rock Tri Buff

Random Rock Lava Gray

Extra, Extra . . .

We are sure that you will agree that pictures of completed jobs and good quality literature is important for all of us to achieve goals. You can help. NextStone is asking that you submit photos by email to: kathyh@nextstone.com If your photo is selected for publication, you will receive a \$50 Visa or MasterCard gift card. If you choose to mail your pictures, please mail them to our office address as shown.
